

# California OES Weather Threat Briefing

Thursday, April 4, 2019  
9:00 AM PST

Day 1: Gusty winds will develop tonight across Northern California

---

National Weather Service  
Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT

# **WEATHER KEY POINTS**

**04/04/19 - 04/10/19**

## **Thursday-Friday**

- Gusty winds are expected across much of the region Thursday night and Friday with impacts to travel and localized property damage
- Rain showers begin today across northern California.
  - Moderate to heavy rainfall to northern and central California expected Friday
  - Localized flooding possible across northern CA. Widespread debris flow flooding is not expected. Ponding water is expected, especially in heavier rain showers.
  - The Carr/Delta burn scar could have possible flooding issues Thursday eve through Friday eve. The period of highest concern is between 3pm PDT Friday and 11pm PDT Friday.
- Late season snow expected over the Northern Sierras passes above 6000 ft today through early Saturday
  - The heaviest period of snow and gusty winds are forecast Friday afternoon

## **Saturday-Wednesday**

- A series of weak storms will move across the far northern portion of the state with mainly light precipitation expected. No significant impacts from rain expected at this time.
- Windy conditions return to Southern CA Tuesday and Wednesday.
